SCADA:

- The SCADA computer crashed and is unrepairable. As a result, we need a new computer. Because we have an older Windows program the information cannot be downloaded, the information must be rebuilt. Lunnie Lang made a motion to approve all equipment and work

needed to get the SCADA system up and running. The motion included the use of Capital funds to pay for the system however when the Selectboard selects an ARPA fund committee the Commissions would like to proceed with the process of filling out an application for use of the ARPA funds for any expenses relating to the SCADA system.

- Jon Thornton made the Commissioners aware of a potential lead issue at a rental property on Bank Street. A home test kit detected lead and pesticides in the water. Our most recent test results indicate that this is either an internal issue at the property or an inaccuracy with the home test kit. We are working with the property owner to resolve the issue.
